Selin Omur

Full-Stack Developer · Istanbul
hselinomur@gmail.com linkedin.com/in/selin-omur github.com/hselino

Summary

Full-stack developer with a B.Sc. in computer engineering, building mobile, web and data products from design through release. I have shipped three AI-powered mobile apps, built with Swift and UIKit, React Native and Flutter. I work across the stack: interfaces, backend services and APIs, store releases and post-release monitoring. I also build Seolin, my own SEO tool, with a Next.js front end and a Django backend.

Experience

Mobile Developer · Mobilina · Hybrid `Oct 2025 - present`

- Build mobile apps end to end, covering architecture, CI/CD, store releases and post-release monitoring.
- Shipped Deqor (Swift, UIKit), PoodleCast (React Native) and MoonVille (Flutter) to the App Store.

Data Science Program · Google AI & Technology Academy `Dec 2025 - Jul 2026`

- Python, exploratory data analysis, feature engineering and predictive models on real-world datasets.

iOS Developer Intern · Neon Apps · Sarıyer `Jun - Oct 2024`

- Built reusable SwiftUI components following clean architecture; took part in sprint planning and demos.

Selected projects

Deqor (`https://apps.apple.com/tr/app/id6751183590`) — AI interior design app for iOS: upload a photo of a room and get it redesigned, staged or decluttered.
`iOS developer · Swift, UIKit, fal.ai (Nano Banana), RevenueCat · App Store`

PoodleCast (`https://apps.apple.com/tr/app/id6757594147`) — Turns notes, PDFs and videos into narrated podcasts, with summaries and quizzes, in 18 languages.
`Mobile developer · React Native, Expo, TypeScript, OpenAI (GPT-5 mini, TTS) · App Store`

MoonVille (`https://apps.apple.com/tr/app/id6766513532`) — Gamified period tracker with a pixel-art pet and an AI chat companion.
`Product owner & Flutter developer · Figma, Flutter, Riverpod, Hive, REST API · App Store`

Seolin (`https://seolin.io`) — SEO tool that tells you which fix to make first, shows how to do it and tracks what changed after.
`Solo builder: product, frontend and backend · Next.js, React, Django, PostgreSQL, Docker, Caddy, Cloudflare · seolin.io`

Skills

`Mobile & frontend`	JavaScript, TypeScript, Swift, SwiftUI, UIKit, Flutter, Dart, React Native, Next.js, MVVM-C
`Backend`	Firebase, Cloud Functions, REST APIs, Databases, Algorithms
`Data`	Python, EDA, feature engineering, predictive models, data visualization, statistics
`Delivery`	Fastlane, GitHub Actions, Bitrise, App Store, Google Play, Cloudflare, Caddy, Git, Agile / Scrum
`Tools & AI`	Figma, Gemini / Imagen, RevenueCat, Adapty, Claude, Copilot

Education

B.Sc. Computer Engineering · İstanbul Kültür Üniversitesi `2020 - 2025`
